

LEADER Equipment for Priority 1

Sector	Definitely NOT eligible	Definitely eligible
General	<ul style="list-style-type: none"> • Tractors • Material Handlers • Excavation and earth moving equipment • Flatbed trailers • Tipping trailers • Hedge cutter • Post driver • Cow tracks • Basic footpaths • General purpose buildings including workshops • Workshop and maintenance equipment • Installation of new power supply. 	
Arable and Grassland	<ul style="list-style-type: none"> • Combine Harvesters • Grain trailers • Forage harvesters • Crop harvesting equipment including potato, sugar beet, vegetable and salad crop harvesting • Cultivator • Subsoiler • Plough • Mole plough • Soil aerators • Land drainage equipment and drill • Harrows • Rotavator • Roller • Sprayer • Fertiliser spreader • Potato Planter • Mowers and mowers with conditioners rake • Buck rake • Bale rake • Grass rakes and tuners • Bale wrapper • Balers; conventional, round and square. • Flatbed trailers • Backhoe Loader • Forklift Material Handlers • Grain handling equipment including grain buckets • Grain store • On farm grain dryer • All GPS systems • Nutrient sensors 	<ul style="list-style-type: none"> • Remote crop sensing systems • Crop robotics • Rain water harvesting and recycling • Controlled atmosphere storage
Slurry/Manure Management	<ul style="list-style-type: none"> • Manure/slurry spreader • Slurry tanker • Slurry stores • Slurry separators 	<ul style="list-style-type: none"> • Trailing shoe slurry system including GPS and macerators as part of the application equipment. • Slurry separator but not associated reception pit

		and storage facilities.
Dairy Sector	<ul style="list-style-type: none"> • Bulk milk tank • Milking parlour • Livestock feed preparation and rationing equipment including feed mixer wagons, mill, pelleters, mixers and complete diet feeders • Milk pumps • Milk jars • Teat sprays and teat dips • In Parlour recording and monitoring • Automatic cluster removers 	<ul style="list-style-type: none"> • Cluster flush • Robotic milking systems • Automatic footbaths • Vacuum pumps
Livestock	<ul style="list-style-type: none"> • Livestock trailer • Yard scraper • Static livestock handling systems, races, pens, gates and hurdles. • New livestock buildings • Basic cattle crush • Buildings and structures used for fodder storage and bedding storage • De-Horner's • Castrators • Cubicles • Dirty Water systems (as these tend to be different to slurry handling) • Roofs for slurry stores and silage pits 	<ul style="list-style-type: none"> • LED lighting systems for livestock housing • Recycling poultry litter systems • Gait Analysis systems • Collar based rumination systems • Calving detectors • Electronic weigh systems linked to EID • Oestrus detection in suckler cows • Real-time monitoring of pig production • Mobile handling systems • Air scrubbers and heat exchanges • Water filtration systems
